EDUCATION

M.S. in Business Analytics

Boston University, Questrom School of Business, Boston, MA

Jan 2027

3.2 GPA

Bachelor of Science in Psychology, Minor in Business Analytics

Suffolk University, Boston, MA

May 2025

3.7 GPA

Dean's List, Graduated Magna Cum Laude

WORK EXPERIENCE

Outfox Energy (Redfish Systems)

Data Analysis Intern

Jun 2026 to Jul 2026

Leicester, UK (Remote)

- Automated recurring reporting for commercial and operations teams by building refreshable Power BI dashboards with DAX measures and Power Query transformations, replacing manual, ad-hoc spreadsheet reporting
- Supported credit-balance and arrears monitoring in line with Ofgem expectations by analyzing direct-debit levels against actual consumption to flag over- and under-set customer accounts
- Queried the group's SQL Server reporting database and cleaned, validated, and explored large operational datasets in Python (pandas) to surface consumption and payment anomalies for the analytics team

Nep Engineering

Sales Management Intern

Jun 2025 to Aug 2025

Baku, Azerbaijan

- Developed and executed sales strategies for technical and engineering service solutions, driving an increase in new client acquisitions and expanding NEP's footprint across energy, infrastructure, and industrial sectors
- Nurtured 15 major client accounts and built partnerships with government bodies, private firms, and international contractors, generating repeat business and increasing average contract values by 30%
- Led a sales team of five, improving pipeline visibility and forecasting accuracy, while collaborating with engineering teams to deliver technical assistance with compliance to client requirements and regulatory standards

Sustainable Business Network of Massachusetts

Business Support Coordinator

Jun 2024 to Jun 2025

Cambridge, MA

- Supported a network of 50 Black-owned businesses through technical assistance and direct connections to funding opportunities and strategic partners, including Cambridge Savings Bank and the City of Cambridge
- Managed Equity Fund application cycle, reviewing 40 applications annually and collaborating with 10-15 grantees to develop individualized success plans and coordinate technical assistance providers
- Cultivated and maintained partnerships across 5 affiliate organizations, enhancing access to resources and services that address the operational and strategic needs of Black entrepreneurs
- Created and distributed targeted content-including monthly newsletters, social media posts, and campaigns-led to a 30% increase in engagement and greater visibility for CSBBN member businesses across digital platforms

PROJECTS

Alone TV Show – Unsupervised Learning & Survival Pattern Analysis

Boston, MA

Boston University – QSTBA 820: Unsupervised and Unstructured Machine Learning

- Applied unsupervised learning techniques (K-Means clustering, PCA, hierarchical clustering) in Python to segment contestants from History Channel's *Alone* across multiple seasons, identifying latent behavioral and demographic patterns tied to survival outcomes and generating data-driven profiles of long-lasting contestants.

Semiconductor Trade Resilience – Assessing Global Supply Chain Vulnerabilities

Boston, MA

Boston University – QSTBA 780: Introduction to Business Analytics

- Used Python (Pandas, NumPy, NetworkX, Seaborn) to analyze global semiconductor trade networks and evaluate supply-chain resilience, identifying key providers and dependencies shaping international trade stability.

SKILLS
